

MAPLE BEAR

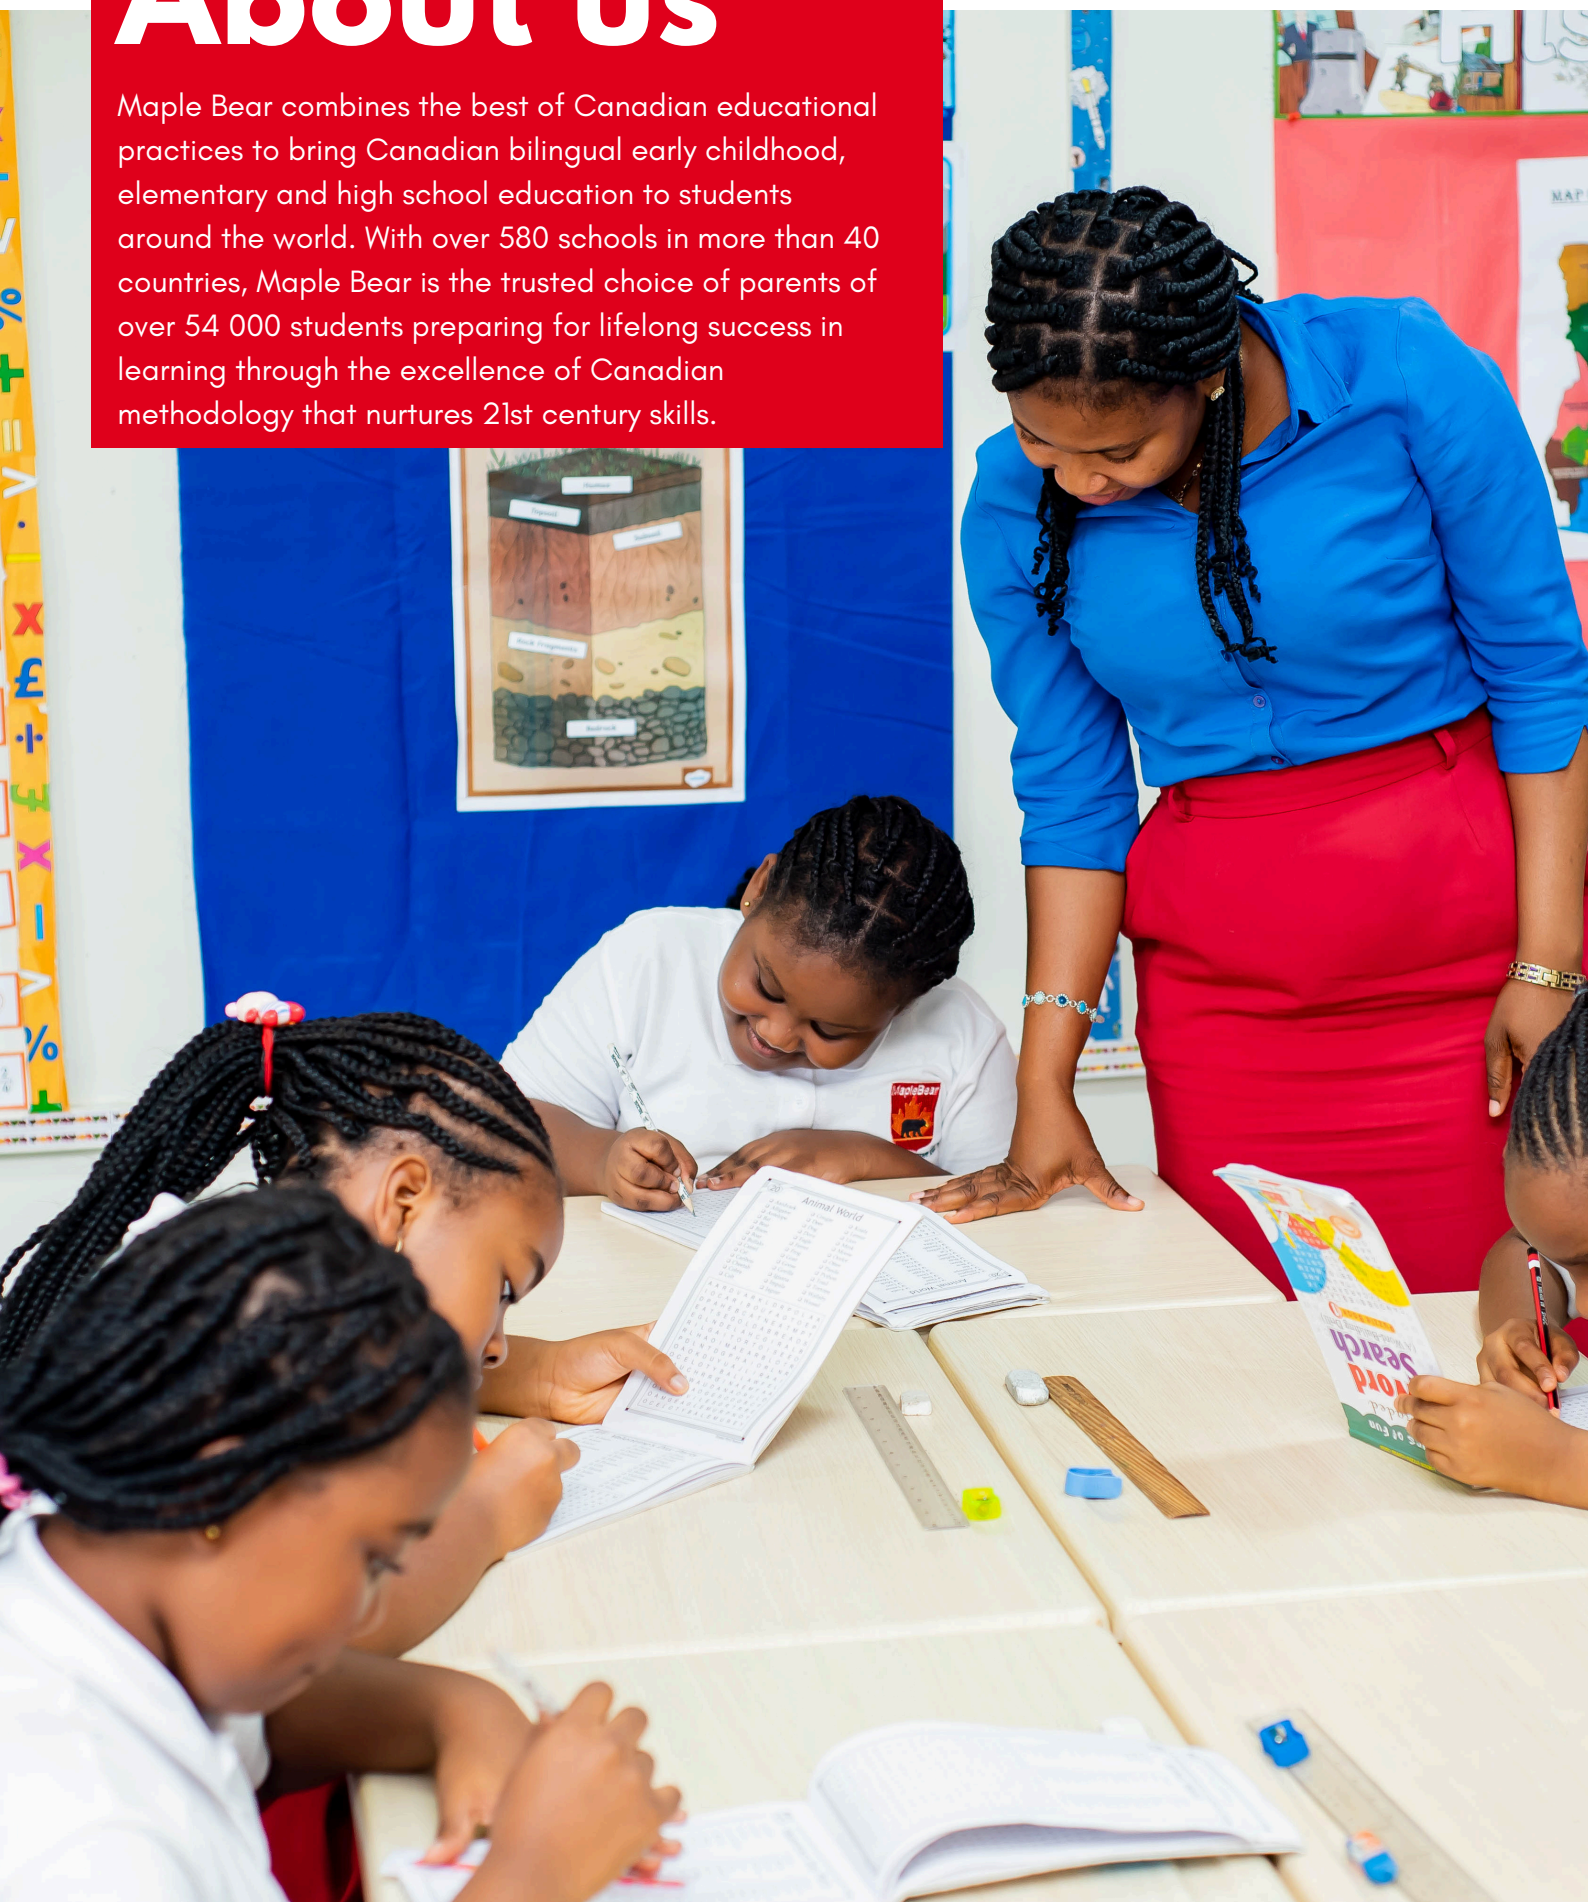

The best of Canadian
education for a global future.

About us

Maple Bear combines the best of Canadian educational practices to bring Canadian bilingual early childhood, elementary and high school education to students around the world. With over 580 schools in more than 40 countries, Maple Bear is the trusted choice of parents of over 54 000 students preparing for lifelong success in learning through the excellence of Canadian methodology that nurtures 21st century skills.

Why choose Maple Bear?

Small class sizes

Our commitment to maintaining low student to teacher ratios in every classroom ensures that each child's learning is individualized to their interests, goals, pace, and needs.

Academic Excellence

At Maple Bear, we're committed to providing high-quality education that empowers children to thrive in an ever-changing world. We believe in nurturing young minds to become confident, creative, and critical thinkers. Our curriculum fosters not just academic excellence but also essential life skills such as problem-solving, adaptability, and effective communication. With Maple Bear, children are not just prepared for the future; they're equipped to shape it.

Canadian curriculum

The Maple Bear curriculum is written by our team of Canadian educational experts who continually update and innovate on the curriculum. Annually, the same experts also deliver teacher training at each Maple Bear school across the world. Canadian teaching strategies encourage student independence, strong literacy skills and higher level thinking.

Global Future

Upon completion of the Maple Bear High School program, Maple Bear students receive a Maple Bear Secondary School Certificate, which is equivalent to and recognized as an Ontario Secondary School Diploma (OSSD). The OSSD is highly recognized internationally and may be used to apply to schools in Canada, the U.S., the UK, and Europe. The OSSD is regarded with the same credibility and prestige as IB system or British matriculation systems, amongst well known examples.

Canada's education system consistently ranks among the best in the world.

The OECD's Programme for International Student Assessment (PISA) ranks Canada # 1 in the English speaking world in science, math and reading. In fact the Canadian education system ranks ahead of both that of the UK and the US.

The Maple Bear 8

Areas of development

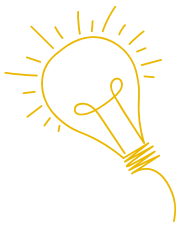

The Maple Bear program is designed to educate the whole child – physically, intellectually, emotionally, and socially. The eight developmental areas are fundamental to our curriculum and are addressed every day through careful planning by teachers trained in Canadian methodology. Integration of subjects in thematic ways stimulates creativity and self-expression at each stage of the program, with the focal goal being the development of positive self-image within and encouraging children to see themselves as capable and competent learners.

Music and Movement

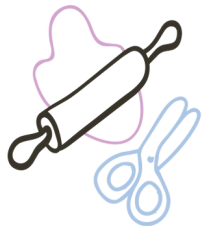

Language and Early Literacy Development

Cognitive Development

Dramatic Play Development

Fine Motor Development

Social and Emotional Development

Arts & Creativity Development

Gross Motor Development

From small steps....

Early Years

The Early Years program expands to emphasize subject streams: language arts, STEM subjects, creative and cultural expression, and personal and social awareness and physical skills and well-being.

Upon completion of the Maple Bear preschool program, students are well prepared for the primary school of choice and have a strong foundation for lifelong learning.

Elementary

For the Elementary program, Maple Bear has developed an excellent, hands-on, rigorous and relevant curriculum that motivates and challenges in each subject area so children can thrive. Maple Bear encourages the development of the child's skills in literacy, numeracy, science, technology, analysis, and problem-solving, fostering children's personal, academic, creative, and physical achievement. Our engaging learning environment promotes and encourages children to succeed in today's world.

to BIG achievements!

We are partner to parents

Open door policy

Our philosophy centers on building an engaged community around the classroom. We prioritize daily communication between parents and the teachers for each age group, both round the clock through a mobile app as well as through ample opportunity for face-to-face time.

Health & safety

Maple Bear takes pride in its globally recognized health and hygiene protocols and policies. Our staff is continually provided with upgraded training to maintain happy, healthy classrooms and hygienic learning and play spaces throughout the facility. All staff is certified to administer pediatric first aid, and trained in the implementation of a thorough sanitation policy as well as emergency preparedness measures. A licensed nurse is also present on the premises at all times. And at Maple Bear, we ensure access to the school and students is strictly monitored.

Inclusion

Maple Bear schools have high learning expectations of children within a healthy, stimulating, and supportive learning environment. We believe that 'Every Child Matters' and that every child has the right to learn and to reach their full potential. Learning experiences are differentiated enabling access for all.

Extra-curricular activities

A well-rounded education includes growth in social, physical and creative capabilities along with academic learning. Extra-curricular activities (ECAs) have demonstrable impact in the areas of developing team spirit, self-confidence, discipline and goal setting, not to mention the chance to experience the thrill of achievement. Maple Bear offers extra-curricular programs across a range of disciplines that contribute to the development of athletic, musical, linguistic, and artistic capabilities amongst other skills.
